

CASUAL PARAMEDIC POSITIONS

Anodyne Services Australia (ASA) provides a wide scope of contract medical services, training and consultations with the aim of preventing injury and illness within the workplace. Our aim is to keep any workforce healthy and safe by drawing on our wealth of experience from staff.

Due to our constantly developing business ASA is now seeking dynamic and enthusiastic paramedics. As the on-site Paramedic you will be responsible for the complete provision of on-site medical services from First Aid through to acute trauma care. Our Paramedics work closely with safety professionals to contribute to the ongoing preventative and proactive health and safety strategies to continue to reduce non-work and work related injuries and illnesses. This work involves long days, weekends and public holidays which is determined by the client and project duration.

As the on-site Paramedic, you will be responsible for:

- The provision of on-site emergency response from First Aid to trauma care
- Contributing to ongoing preventative strategies to reduce non-work and work related injuries and illnesses
- On-site Drug and Alcohol testing (if required in the SOW)
- Proving safety Sunday and other health related topics for toolbox meetings
- Manage patients awaiting medevac from site
- Perform daily ambulance checks whilst maintaining cleanliness of vehicle
- Provide correct patient record keeping
- Provide accurate reporting to Head Office

Skills and Experience required

- Diploma or Bachelor degree in Paramedic Science (equivalent qualification)
- Accredited qualification to perform Drug & Alcohol testing
- CertIV TAE/TAA
- PMASUP236B Operate vehicles in the field
- Current Police check (issued within the last 3 months)
- Current C class Drivers licence
- Experience working in rural and remote areas
- Strong interpersonal skills
- Ability to work independently with a high level of self-motivation
- Able to work within constantly changing working environment
- Well organised and able to communicate well with a diverse range of people

ASA will provide:

- Competitive remuneration package
- Support and governance from a dedicated Medical Officer
- Access to 24/7 Medical support
- Top of the line emergency response vehicles meeting mine spec requirements

All resumes and qualifications are to be JP certified on application. For further information email hr@anodyne.net.au
